Georgia Medical Society records

Descriptive Summary

Repository: Georgia Historical Society
Creator: Georgia Medical Society.
Title: Georgia Medical Society records
Dates: 1845-1970s
Extent: 13.0 cubic feet (26 boxes, 18 volumes)
Identification: MS 2012

Biographical/Historical Note

In 1804 doctors of Savannah, Georgia petitioned the Georgia Legislature to grant them a charter for a medical society. The charter was granted December 12, 1804 for the Georgia Medical Society. This date makes the Georgia Medical Society the second oldest active city medical society in the United States.

The by-laws provided for a president, vice-president, secretary, treasurer, librarian and orator. Members were called fellows. Elections were held annually though the same people were often re-elected.

The anniversary meeting was always held on the first Saturday in January. After the meeting the Society would march to the City Exchange where the Orator would deliver a speech. The regular meetings were held once a month on the first Saturday at noon. At the meetings members presented papers.

The Medical Society was formed "for the purpose of lessening the fatality induced by climate and incidental causes and improving the science of medicine." Their interest in higher education led to the establishment of a medical library.

Early meetings were held in private homes, rented rooms, and hotels. In 1914 the Georgia Medical Society bought, renovated, and dedicated the building at 612 Drayton Street. This building is still occupied by the Georgia Medical Society.

(Written by KAB 6/1/1996)

Scope and Content Note

This collection contains minutes from the Georgia Medical Society's monthly meetings; general information related to the GMS; a compilation of information on various members of the GMS; financial information such as insurance proposals, bills, and receipts; information on the GMS library; photographs and X-rays; published information including medical pamphlets, bulletins, by-laws, and journals; and Civil War period medical reports from camps in Georgia, Florida, and South Carolina.

The collection also contains a pair of spectacles.

Index Terms

Associations, institutions, etc.--Georgia--Savannah.
Georgia Medical Society.
Medical libraries--Georgia--Savannah.
Medical publishing--Georgia.
Medicine--Georgia.
Medicine--Societies, etc.
Physicians--Biographies.
Physicians--Georgia--Photographs.

Series VI: Photographs and x-rays

0.5 cubic feet (1 box, 1 book, 3 oversize folders)
Photographs and X-rays. Photographs are of people and places related to the Georgia Medical Society. X-rays were made by Dr. Corson, a member of the Georgia Medical Society and a pioneer in the X-ray field. They are more useful for their intrinsic nature rather than for photographic purposes. X-rays are extremely brittle.

Box 1: Folders, book, oversize folders, undated

Box Fldr
